The inauguration of the new United States Postal Service on July 1st, will be celebrated in Washington, D. C., and in every post office across the country. Postmasters Robert Cooper, Elba; Mrs. Roxie

by Kimbro, Kinston, have announced that all members of the community are invited to visit their local post office on Thursday, and enjoy the hospitality of the men and women who comprise the new U. S. Postal Service. Both Mrs. Smart and Miss Kimbro have announced that refreshments will

be served at the Jack and Kinston postoffices. Dedication ceremonies in Washington will be hosted by Postmaster General Blount. Honored guests

will include members of Congress, former Post-master General, the Board of Governors of the new Postal Service and their wives as well as Assistant Postmasters General, headquarters personnel and other dignitar-

Visitors to the local post offices will be given a souvenir envelope printed with the old and new insigna of the Postal Service. This envelope will also be available in limited quantities as a first day can-

of an 8¢ stamp--by cancelling half of the souvenir envelopes in advance. This will be the first time First Day Covers have been available in all U. S. Post Offices.

A photographic display of modern Postal Service jobs and functions will help visitors learn more about the men and women of the Postal Service and how each mailer can help them serve the community better. A MESSAGE FROM JACK BRUNSON, MAYOR City of Elba, Alabama

Most of us like to think that the drug threat is a have a drug threat in our City and County today. For this reason I obtained a series of articles for publication in an effort to communicate with as many parents as possible. This series, as the title implies, will be to give all parents in our community some of the latest information on

TODAY'S SUBJECT: The Drug Scene in Our Country This is No. 1 in my new series of "letters" to parents. Since I cannot possibly talk to every parent individually I find this is a speedy and efficient way to communicate. This series, as the title implies, will be to give all parents in our community some of the latest information on drug abuse.

present generation of young people in our schools and colleges are the best informed, the most intelligent, and the most idealistic of any we have ever had in this country." He adds. "today's young people are more moral than their elders, 90% of them." Only a small minority of young people are using and abusing drugs, but a minority still means a great number of young people, some quite young, and the number is evidently increasing rapidly.

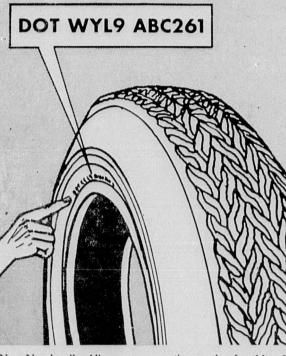

This is a drug-obsessed society. In 1965 about 167,000,000 prescriptions were written by doctors for psychotropic drugs, the kind that change or affect mood or behavior. Adults were the main consumers, and so we must assume that adults them selves are high on the list of drug abusers.

If this is true, and national statistics seem to indicate it, the parents must look to themselves when trying to understand how the drug problem got its start in the first place. However, the purpose of this series is not to place blame, but rather to become familiar with terminology, learn more about the drug problem itself, and discuss how best to cope with it as parents.

It takes no giant intellect to realize that a parent cannot scare a child into doing "the right thing" with statements that are not factual. During these trying times most children, from their associations on the street, know more about drug use and terms than their parents. Therefore, what we discuss here about drugs will be an effort to meet and surpass the knowledge of our children, so that we may better impress them on

drugs that affect the mind is spreading across the country. Hundreds of thousands, maybe millions of young Americans are tasting, testing and experimenting or going further with marijuana, LSD, with "uppies" and "downies" . . . pep pills and sedatives, with "Speed," and a few with heroin. So then, in the series ahead, we will examine such things as Oral Amphetamines, Injected Methamphetamine, Barbituratess, Heroin, Marijuana and LSD - what they look like, the names they are called by the teens, where they are obtained, how they are used, dangers of use, affects of use, reactions, etc.

For a majority of youngsters, an encounter with mind-affecting drug seems only a flirtation with the user feeling sure he can take it or leave it. Some authorities say that such experimentation can amount to drug roulette; some young people happen to be particularly susceptible to some drugs and can become dependent and hurt badly by what they intended as an

THE ELBA CLIPPER JULY 1, 1971

WE HAVE LOVED ELBA

It is not necessary to introduce the new owner of Clipper as an employee. There were times when he time, "I like Elba," That apparently answered any change that might have been considered. He had adopted Elba as his home because he liked it and not because he was born and reared here and already rooted to the extent he could not leave. So for that reason, I When Mack and I came to Elba nine and one-

half years ago, we were told that you had to live here lmost a lifetime before you were considered as a part of Elba. For some reason, we never did have the feeling that we were outsiders and not already a part of this city. It never crossed our minds that we were not as much a part of Elba as anyone who had lived here all their lives. And I know Mack adopted Elba as his and he really has loved this little town above any other. I did not have the privilege of seeing the people in Elba as I would have enjoyed. My work load was heavy and confining and I only had the privilege of seeing the people who came to our office. Not so with Mack. The first day we were here he learned, and by nightfall, knew as many people as some who had lived here for years. He knew the mayor personally days before we even bought the newspaper and they continue to be good

It is with regret and our hearts are heavy realizing that we are leaving Elba for good. But we are getting to the age we think it best to lighten our responsibilities somewhat. We also think that it would be to the advantage of the newspaper and the people of Elba for a ounger man to now take over and continue where we're eaving off. I'm certain Ferrin will do a good job and will work with the people in Coffee County efficiently. We feel that we have many friends in Elba and l of Coffee County. These are friends we will cherish always. And we are not marking Elba off our list for we will return for visits and we think we will be welcomed. This is one of the best towns in Alabama and we know we're leaving Ferrin Cox in good hands. The people of Elba have made us feel that they appreciated The Elba Clipper and never has even one person made an effort to dictate the policies of this newspapers. This newspaper has been accepted as independent and as having the same rights as any individual or groups. The relationship between this newspaper and its readers have been good--far above the iverage during our more than nine years with The

Mack and I now bid you a good-bye as to the publishing of The Elba Clipper. But we are not saying good-bye as to our relationship with Elba and Coffee County for we will always feel that we are a part of this area. We will now be in Florala where we are rooted so deep that we can't get away even if we should desire just as many of you in Elba are here for the same reason. But then we love our home, also, and will continue to be happy with our lot. Any time any of you are in Florala visit with us, if time permits, at The Florala News, which we will continue to publish and where we will be found. But I think I can assure that Mack will be visiting in Elba often. We pray that you will support Ferrin Cox just as you have supported us and we are confident that you will. You already know him and you have already ted him as a part of Elba. He will give you as good a newspaper as the area supports. As I said in the beginning, the newspaper in a small town mirrors that town. If you have a good progressive town it will be reflected in your newspaper. I will look forward to seeing The Elba Clipper each week and I'm confident that I will like what I see. Elba is a wonderful town and The Elba Clipper is a wonderful newspaper. It has been a pleasure to serve all of you of this area the past nine and one-half years.

A Dream Come True

I hardly know how to begin this article. Being The Elba Clipper. He has been with this newspaper filled with emotions over buying the Clipper probably since November 1964, and came here loving Elba and can only be equaled by the emotions of the McRaes the area. In fact, he adopted Coffee County as being as they sell something that has become such a great his own from the first moment he set foot in The Elba part of their everyday life. What makes these emotions so strong is the fact that newspapering is not probably could have accepted another position with for those seeking vast riches but for those who love perhaps better compensation, but he would say every- the business and who love the people they are serving. For me it is a personal dream come true. It was after only a few years in the newspaper business that I knew that someday I wanted to own a newspaper. Soon after Heddy and I moved to Elba, it became apparent we would be pressed to find another community we liked say, John Ferrin Cox actually loves Elba. He did not half as well as welke Elba. Now suddenly we own The Elba Clipper in Elba, Alabama, which with all its faults, is the finest town anywhere.

For both the McRaes this is one of the times that tear at a person's heart. Friendships that have been made and strengthened must now be deluted, as change of life pattern will do. Though Mack will be returning to Elba when the notion strikes him to visit all-American hamburger. with his many friends from time to time, I know it hurts

them to surrender both their home and business in this

There will be no promise of drastic changes in policies, politics, or even in the way the paper looks. I am conservative by nature and received all my newspaper training under the previous owners, a chance for which I am grateful. However, that training included a strong reminder to "try to do better" and this will be done from week to week.

All the niceties are fine at the onset of a change such as this, but when we get down to the nitty-gritty of every day life, three things will be needed to make our venture a success; hard work, your support and God's blessings. The hard work we will readily give; we trust God will give his blessings; and we humbly ask for your support.

Chances are nothing will go wrong. But if it does, can the buyer force the retailer to honor this agreement, if someone else is holding the credit contract? A reliable dealer will honor the contract, because he values the good will of the consumer. But if the dealer will not honor the contract, the buyer has no means of getting satisfaction short of writing the manufacturer.

When a consumer signs sales contract for crelit, the dealer usually sells the installment note to a third party, probably a bank or finance company.

Usually it looks like fine, green tobacco. It is smoked in pipes or cigarette form. Hashish, also a preparation from Cannabis, is taken orally in many forms, and infrequently it is made into candy, sniffed in powder form, mixed with honey for drinking or with butter to spread on bread. The primary effect is a feeling of great perceptiveness and pleasure and an exaggerated sense of ability, resulting from even small doses. Erratic behavior, loss of memory, distortion of time and spatial perceptions, and hilarity without apparent cause occur. There is a marked unpredictability of effect.
